u-GUARD™ Non-Marring Covered Tools

The Crescent® series of u-GUARD non-marring covered tools gives you protection and control on the jobsite. These patented tools allow the user to grab directly onto the drive tool while it spins freely inside the cover, increasing fastening control and significantly reducing contact from the rotating tool.

- Non-marring cover protects from scratching or damages
- Thin wall maximizes access
- Free spinning sleeve enhances control and safety
- Full body design for greater strength and durability
- Optimized tip geometry for exact fastener fitment
- Helps to eliminate cam-out and promotes fastener retention

eSHOK-GUARD™ Isolated Tools

Protect yourself from electric shock with Crescent APEX's new patented isolated technology, **eSHOK-GUARD**, providing insulation of up to 1,000 volts. Combining safety and convenience for a revolutionary experience when working around potential live wire applications, eSHOK-GUARD's impact-rated design withstands heavy-use, and impact tool applications, so you never have to sacrifice protection when using power tools.

eSHOK-GUARD™ Isolated Bit Holder

- **Isolation Zone protects up to 1000V** – Isolates all your standard bits
- **Impact Rated** – Withstands heavy-use in impact applications
- **Magnetic Tip** – Fasteners stay securely in place
- **Retaining Ring** – Easily secure and replace bits
- **1/4" Hex Shank** – Compatible with impact drivers and drills
