Snips

Crescent/Wiss® Offset Straight Snips are engineered to keep hands safely away from your work, while delivering exceptional cutting performance.

Cut More. Safely.

Crescent/Wiss® Offset Straight Snips have compound lever action and precision-cast serrated blades to reliably and comfortably cut up to 18-gauge steel with 20% less force. Spring action provides a smooth, effortless feed, even when cutting heavy stock and tight curves. Designed for safety and performance, these snips are another reason why Crescent/ Wiss is the first choice of professionals.
