

 **CRESCENT®**

Wrecking and Pry Bars

Trusted by the Trades.

Pry yourself out of any situation.

Tackle your next renovation or demolition project with the latest innovations from Crescent. Our new tools are designed around powerful innovations that allow the user to attack projects from the best angle, adjust your tool to fit the task at hand, and just get the job done faster and easier than before. This series of tools offers a wide array of demolition and renovation tools. All Crescent pry bars have precision ground edges that make it easier to access tight spaces and help minimize damage to finished areas, as well as a crow bar end with a nail puller slot for standard crow bar use. Durable two-tone dual material grips provide comfort, control and added safety.

Indexing Pry Bar

The Indexing Pry Bar features a 90-degree flat head for better access and wider support when prying against surfaces. The head adjusts over 180 degrees and locks into 15 different positions for unparalleled access and utility. Designed to reach between studs, joist, and other tight work spaces, this indexing nail puller will help you get the job done every time!

GREATER ACCESS

Raised Striking Surface
Allows for triking to loosen and penetrate nails or boards

Dual Material Grip
Provides comfort, control, and safety whie applying force

Indexing Head
Head indexes over 180° and locks in 15 positions

Double Ended Nail Puller

The Double Ended Nail Puller features precision ground ends and a rocker head for nail pulling with maximum leverage and minimal material damage.

CNP12

Indexing Nail Puller

The Indexing Nail Puller has an indexing head that adjusts over 180 degrees and 14 different lock positions for increased leverage in any position and up to 1/2 ton prying power.

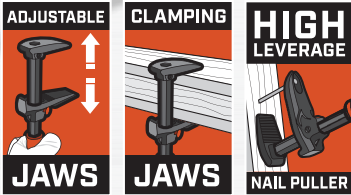

DB12NP-06

Adjustable Pry Bar

The Adjustable Pry Bar is a multifunctional too with an adjustable jaw that slides and clamps onto objects for straightening and prying, two striking surfaces and a crow bar end with a nail puller slot.

DB16-07

A Full Selection for Professional Users.

Crescent pry bars offer patented technology that provides users with the ability to use one pry bar for multiple applications, best in class access and leverage with the Crescent standard for durability.
