

 **CRESCENT[®]**

**u-GUARD[™] Non-Marring
Covered Tools**

Trusted by the Trades.

u-GUARD™ Non-Marring Covered Tools

The Crescent u-GUARD™ non-marring covered tools gives you protection and control on the jobsite. These patented tools allow the user to grab directly onto the drive tool while it spins freely inside the cover, increasing fastening control and significantly reducing contact from the rotating tool.

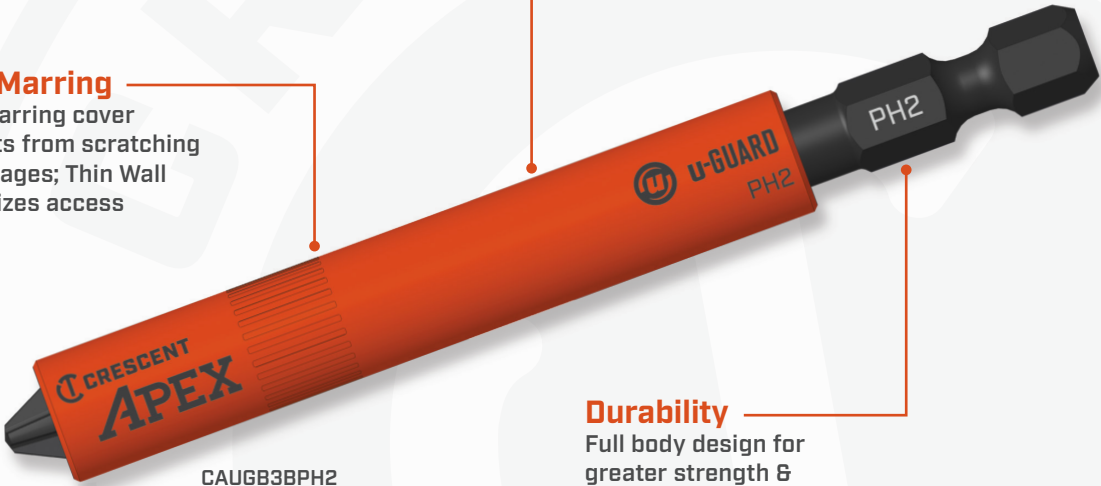

* Grip measured on Phillips bit only

Non-Marring
Non-marring cover protects from scratching or damages; Thin Wall maximizes access

Safety
Free spinning sleeve for enhanced control & safety

Durability
Full body design for greater strength & durability

The Crescent Fastening line enhances durability, extends life and improves tool fit, while also making tools easier to identify on the jobsite. Crescent is committed to providing high quality fastening solutions with durable dependability.

u-GUARD™ alphaCASE™ Sets

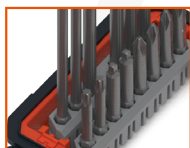

The u-GUARD™ alphaCASE™ fastening sets with the u-GUARD™ non-marring covered tools is built for the most demanding jobsites. The stack and store alphaCASE™ features a tongue and groove design with thick sidewall construction. The 18-piece, 30-piece, and 37-piece sets include the u-GUARD™ non-marring covered tools, which protect final finishes from damage as well as the core S2 steel product with optimized tip geometry.

Superior Durability
To withstand the toughest jobs

Pivoting Insert Rails
Refillable for ease of use

Stackable
For convenient storage

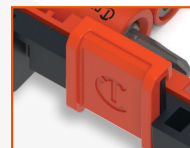

Rail Flexibility
Store longer bits

Additional Rail Slot
Increased bit count

Full Length Metal Hinge
For improved case life

Attachment Points
For versatility on the job

New Latch Mechanism
Lower profile, easy to use

Redesigned Rail Grip
Easy to grip and access bits

CAUGSET-30

Screwdriving bit tips include Square, Phillips®, Torx®, Slotted, Quick Release Bit Holder, Power Bit Holder, and Magnetic Nutsetters. Bits are secured in pivoting insert rails inside the case, allowing easy access to bits and case configurability.
